

# Envoy™ Panel System

The Elegant New Look of Exhibiting

exhibiting solutions

# Designed for Style and Purpose: Envoy™ Panel System

**The Future of Exhibiting is Here**  
Envoy is setting the standard for elegance in exhibiting. Its curved corners provide a soft, clean look while its sleek profile allows graphics to stand out.

**Deep Frame for Functionality**  
Envoy's lightweight aluminum frame is 4-inches deep to provide a feeling of mass, support a variety of accessories and hide unsightly wires.

**Envoy Rental: A Step Above**  
Realize the benefits of rental without looking anything like a typical rental exhibit. With purchased graphics or rental panels, you'll stand out with Envoy!

Envoy can be an integral part of your overall solution in exhibits of any size.

## Modular Design for Flexibility

Envoy is compatible with other Skyline modular systems, like Tube Ultra®, Tapestry™ and SkyTruss™, to give you versatility in design. Get the look that fits your brand and the option to change your exhibit design to accommodate varying spaces. Use part of your inline exhibit as a kiosk in your store or lobby. Purchase – or rent – additional components for larger shows. With Skyline, you're not limited to one inflexible solution.

Envoy has a variety of compelling accessories to meet your exhibiting objectives from shelves and screen holders to merchandising and lighting.

**Pre-Assembled for Quicker, Easier Installation!**  
Envoy panels come pre-assembled, which saves on installation and dismantle costs.

## Envoy™ Modular Panel System

Envoy's elegant design complements any product and is perfect for temporary or semi-permanent installations like malls and showrooms.

## Accessories

Envoy shelves are sturdy to support lots of products and are easily repositioned. Optional under shelf lighting highlights product.

Light headers call attention to graphics and products. Only Skyline has UL and CSA Commercially Certified Lighting Systems.

Baseplates can be hidden below show floor carpet for a clean, professional appearance.
